

cellarspace™
Management Pro by Apex

Because a fine wine tastes best...
when you can
find it.

Buy it.

Store it.

Find it.

Savor it.

CellarSpace™ Management Pro™

New to Apex's family of world-class wine lifestyle products is **CellarSpace™ Management Pro™**, a robust wine inventory system where you can see what's in your cellar. Not only what bottles you have but, with our unique **CellarMapping** feature, exactly where they rest in your cellar, cabinet, wine locker or under-counter wine refrigerator. A bar code scanner and label printer make managing your collection easy. Apex also offers in-home **Concierge Services** to help you manage your wine collection with personalized cataloging and inventory setup.

features

CellarMapping

CellarMapping maps all bottle locations in drawings of your cellar for use with **Management Pro™**. You'll see the location of your wine in a drawing of YOUR cellar.

Inventory your wine collection

Management Pro's bar code printer creates a label for each bottle as it is entered into the system. Every bottle has a unique address and identity so you'll know exactly what you have and where it's located at any time.

Browse your wine

Browse your collection by winery, region, varietal, vintage or label. View tasting notes and, of course, locate your wine!

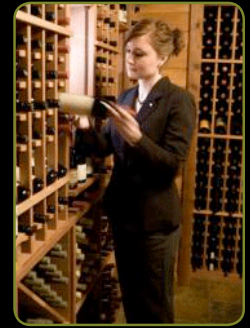

Update your inventory

To remove a wine from your collection, simply wave the bottle under the bar code scanner and walk away. That particular bottle will be automatically deleted from your inventory.

Concierge Services

Cataloging a vast wine collection can be a daunting task. **Concierge Services** from **Management Pro™** relieves you of this manual work and puts it in the hands of our professional staff.

Whether your collection contains 500 or 30,000 bottles, **Management Pro™** will dispatch our staff to your cellar and begin the process of cataloging and bar coding every bottle of wine. Each bottle is cataloged by country, region, winery, variety, vintage, bottle size, quantity and location.

CellarSpace™

In the near future, **CellarSpace™** will offer users a personalized web space where they can learn more about wines, visit wineries and vineyards, meet the winemakers, monitor the conditions of their wine cellar, view their cellar layout, manage their inventory, share their wine experience with others, browse and shop for wine and more!
