

THE APEX ADVANTAGE SINCE 1984

Customer service and high quality products are our top priorities. At Apex, we fully understand the importance of one-on-one personal on-site care. To accomplish this goal, we have developed a network of company-owned, regional offices staffed with a sales team of wine cellar construction specialists and trained in-house carpenters. The Apex regional offices are supported by our 30,000 sq. ft. design and production world headquarters in Monroe, WA. The formula of factory-direct prices with local on-site consulting and installations has made Apex the fastest growing cellar manufacturer in the world.

- National network of company-owned sales offices for local on-site consulting.
- Full racking installation services by Apex's trained carpentry staff.
- Cellar décor design/build, including room preparation, doors, lighting, flooring, painting, etc.
- Apex Design Department: FREE 2-D CAD drawings. 3-D CAD designs are available for a small fee.
- Factory-direct prices.
- Local and worldwide project references for private cellars, restaurants, and wine stores.
- Design showrooms (most locations).
- The most advanced website in the wine cellar industry.
- All racking is handcrafted at Apex's manufacturing facility with the highest attention to detail.
- Buy online or call the regional office listed below for personal one-on-one service.

CREATORS OF THE WORLD'S FINEST
CUSTOM WINE CELLARS SINCE 1984.

36" x 80"

CUSTOM WINE CELLARS
STANDARD RACKING KITS
WINE CABINETS
CIGAR HUMIDORS

Your Apex Cellar Consultant will work closely with you to design the most beautiful and unique wine cellar that will exceed your highest expectations based on your room size and bottle capacity requirements. No project is too small or too complex. Since 1984, Apex has been specified by the finest architects and designers around the world. All our racking is hand-crafted at our own production facility. In-stock racking materials are: All Heart Redwood, Clear Grade A (non-aromatic) Western Red Cedar, Malaysian and Honduran Mahogany. Other types of woods are available upon request. In addition to racking systems, we can provide the cooling equipment, doors, etched glass, cellar décor preparations, flooring, lighting, and cellar accessories. The design possibilities are endless!

CAD DESIGN SERVICES

Apex has an experienced design team that works with our wine cellar consultants to create the wine racking system that best fits your collection and décor goals. Architects enjoy the convenience of downloading complete specifications and CAD drawings online at www.winecellarplans.com. 2-D CAD drawings are free of charge and for those who need more details we offer 3-D CAD drawings for a small fee.

STANDARD RACKING KITS

Apex is proud of our finely crafted racking kits. They are made with the same materials and 13 3/8" deep standards as our custom cellars. Design your own personal racking system for either a small wine collection or a full room with the assorted sizes and configurations of our simple, ready-to-install kits. Use the Online Wizard at www.apexwinecellars.com to conveniently build a cellar according to your room measurements and purchase directly online, or call us toll free for assistance.

WINE CABINETS

Would you prefer to store your fine wine in a quality wine cabinet? To help you select your cabinet design and features, refer to our "Wine Cabinet Wizard" on our Apex website. You can explore the different cabinet sizes and material, door styles, cooling equipment, stain colors, racking designs, and other options that make each cabinet unique. Order online or call to have an Apex Wine Consultant assist you.
